Exciting new community micro-enterprise project in Leeds

This project takes learning from [Community Catalysts' highly successful project in Somerset](#) and aims to work with local people who want to develop small enterprises and ventures offering a wide range of help and support for older people and those with dementia at home who want to live life their way.

As well as helping people to set up new community micro-enterprises Community Catalysts will also be able to advise small groups and organisations already established in Leeds and looking to diversify or extend what they offer. **Helping local people to help other local people.**
